#PMJAYmakingAdifference

Barabanki

Ashok Kumar from Barabanki, had severe burnt injuries due to gas leakage in his house. His hands, chest and neck were severely burnt in the ensuing accident. Being a poor farmer and the only breadwinner of his family, he had little money that he could spare for his treatment. Thankfully, he was intimidated by the ASHA worker of his village to see if he was an Ayushman Bharat Pradhan Mantri Jan Arogya Yojna beneficiary. Discovering that he is eligible under PMJAY through enquiry at hind hospital, he was treated for post burn contracture and associated surgeries free of cost.

Hapur

Beer Singh Rana was suffering from severe pain in his back bone. Due to severe backbone pain, Beer Singh Rana was unable to stand for a long time. He needed an immediate corrective surgery for which he had no money as he was a daily wage labourer.

Ayushman came to his rescue by helping him to a free of cost treatment for Laminectomy, a procedure that costs 50000 and above in hospitals. He is thankful to the AB-PMJAY for saving his life and enabling him to stand again.

Pratapgarh

A 29 year old Kiran Devi from Dahilamau, Pratapgarh, was unfortunate to suffer from damage of the heart valve something that would adversely affect her longevity and quality of life. Since her husband is a street vendor, he was unable to afford her treatment, which could take place only in a top notch tertiary care hospital. Fortunately, she is an Ayushman beneficiary, due to which she underwent open heart surgery in SGPGL. She received entire course of treatment including medicines, diagnostics and other services free of cost.

Bareilly

Mr Sartaz (41 year) of Bareilly district was diagnosed with mouth cancer (Retro molar trigone), a rare and aggressive malignancy which has a tendency to rapidly spread in different parts of the body. Sartaz was unaware about the disease. He worked as a porter and used to drink alcohol. He could hardly earn to support his seven members' family. Diagnosis of cancer came as a shock to him and his family who looked upon him for their livelihood. Due

to the poor economic condition, he decided not to get treated as the cost of treatment was beyond his reach. One day an ASHA came to his house with a letter of Ayushman Bharat and informed him about its benefits in the scheme. Sartaz went Glean Cancer Center- a tertiary care cancer hospital in Bareilly for his treatment. He underwent composite resection and reconstruction surgery completely free there. Post surgery he also underwent series of radiotherapy and finally declared disease free.

LETTER FROM THE CEO

Dear Readers,

It has been almost a year since the implementation of Ayushman Bharat Pradhan Mantri Jan Arogya Yojna was initiated in the state. We, at State Health Agency, are keen to keep you informed about the latest AB-PMJAY developments and the growing diversity of initiatives under the Ayushman umbrella.

In the last issue, we highlighted major activities such as Grievance Management, Plastic Cards Distribution, Health Camp Pakhwada, Role of Call Center and how we are assuring easy access and quick response on AB-PMJAY services. We are now focusing on deepening the scheme in the underserved remote areas, ensuring that each and every individual is aware about the scheme. In the last few months, we have undertaken a drive to achieve 100% golden card saturation by engaging village-level entrepreneurs and making golden cards at village level. Some districts are performing better than expected while some need major improvement.

As we are close to completing a year of implementing AB-PMJAY, we wish to receive your kind support and any suggestion or feedback.

Thank you.

Singh

Mrs. Sangeeta Singh
CEO, SACHS

THE AIM OF THIS NEWSLETTER IS TO DISSEMINATE INFORMATION ON THE VARIOUS ASPECTS OF AB-PMJAY - CURRENT STATUS OF IMPLEMENTATION, AND THE ACHIEVEMENTS SO FAR IN THE STATE OF UTTAR PRADESH
