## HBP 2.0 Preparedness and Rollout

Ayushman Bharat Pradhan Mantri - Jan Arogya Yojana (AB PM-JAY) was launched on September 23<sup>rd</sup>, 2018 in Uttar Pradesh. At the time of launch, National Health Authority defined 1393 Health Benefit Packages comprising 1083 Surgical Packages, 309 Medical Packages, and ONE Unspecified Package for each surgical specialty, with a cap amount of INR 100,000. While HBP 1.0 was comprehensive and served various specialties, there were a few observations in the structuring of packages around costing of common procedures, duplication of some recurrent procedures, inconsistencies in terminology, overlap with national health program packages and a requirement for redesigning packages that aim at holistic treatment i.e., cancer.

The ICMR and the National Health Authority jointly conducted a Costing of Health Services in India Study (CHSI) which drew inputs from specialist committees comprising major stakeholders, including premier medical institutes and large private establishments. They rationalized package rates, revised terminology and provided justification to continue/discontinue packages. NHA also entered into a MoU with Tata Memorial Hospital, Mumbai for completely redesigning oncology packages and developing standard treatment protocols for the same.

Consequently, HBP 2.0 has 872 packages split into 1574 procedures. By the new nomenclature, many packages are a group of procedures split primarily based on surgical approach or different types of treatment modalities available for a similar type of treatment. Rates have been increased in 270 packages, reduced in 57 and retained in 469. Restructuring of packages meant that 554

packages were discontinued (due to reasons of being obsolete or incorrectly named etc), while 237 tertiary care packages were newly introduced. HBP 2.0 covers 23 specialties including an 'Unspecified'. All specialties from HBP 1.0 have been retained except for Pediatric Cancer which

**HBP 2.0 is more organized, structured and rationalized. It has 872 packages split into 1574 procedures. Rates have been increased in 270 packages, reduced in 57 and retained in 469. 554 packages were discontinued while 237 tertiary care packages were newly introduced.**

has been discontinued. All procedures of pediatric cancers have been split into medical / surgical oncology.

HBP 2.0 is more organized, structured and rationalized. Because of complicated 4-layered IT customizations such as multiple procedures in a single package, cross specialty packages, stratifications, etc. the total number of packages may appear to be reduced to 872, but in reality have been increased to 1557 within the TMS – which is the main software for claim generation. The complete list of revised Health Benefit

Packages and FAQs can be found in the Resources << Documents section on the NHA website [www.pmjay.gov.in](http://www.pmjay.gov.in)

As HBP 2.0 will be live from 1<sup>st</sup> March, 2020 onwards in the state & we have tried our best to be prepared for this mega change. In this direction we organized three day workshop from January 22<sup>nd</sup> to 24<sup>th</sup> 2020 at Training Hall, Veerangana Avanti Bai Mahila Chikitsalaya, Lucknow to train our entire DIU team for this activity. A certificate of participation was also been given to the DIU members by CEO, SACHIS. Further, we have also provided training to selected Medical Colleges, PMAMs, and to our Call Centre staff.

In addition, NHA is also conducting a conference on implementation AB PM-JAY in medical colleges at New Delhi to discuss better participation of Medical Colleges in provision of PMJAY services.

## LETTER FROM THE CEO

**Mrs. Sangeeta Singh**  
**CEO, SACHIS**

Dear Readers,

Greetings!

I am delighted to share the progress of Ayushman Bharat Pradhan Mantri - Jan Arogya Yojana for the months of **January** and **February 2020**. The past year saw several achievements under PM-JAY. Till date around 3.5 lakhs beneficiaries have received free of cost treatment for secondary and tertiary ailments in Uttar Pradesh. In the second year of PM-JAY implementation, we plan to undertake several initiatives to strengthen our systems and processes, along with intensive awareness creation and golden card generation activities.

AB-PMJAY is constantly improving and evolving, and in this aspect an important exercise has been to revise the cost and structure of **Health Benefit Packages** available under the scheme. While HBP 1.0 was comprehensive and served various specialties, there were a few observations in the structuring of packages around costing of common procedures, duplication of some recurrent procedures, inconsistencies in terminology, overlap with national health program packages and a requirement for redesigning packages that aim at holistic treatment, i.e., Cancer. I am happy to announce that these have now been rectified in HBP 2.0, which has been rolled out in Uttar Pradesh in the first week of March 2020.

With the scheme's successful on-going execution in the state, I would like to extend my gratitude to all our stakeholders, and also urge them to work towards reaching the last mile so that all beneficiaries gain access to the benefits of AB PM-JAY in Uttar Pradesh.

Thank you.

**THE AIM OF THIS NEWSLETTER IS TO DISSEMINATE INFORMATION ON THE VARIOUS ASPECTS OF AB-PMJAY - CURRENT STATUS OF IMPLEMENTATION, AND THE ACHIEVEMENTS SO FAR IN THE STATE OF UTTAR PRADESH**

### Activity in Focus : Ganga Yatra

Honorable Chief Minister Shri Yogi Adityanath flagged-off Ganga Yatra campaign on completing three years of his government in Uttar Pradesh. The Ganga Yatra was covered 1,025 kilometers while passing through 26 districts of UP, where the Ganga river flows. As per the instructions of Principal Secretary, Medical Health & Family Welfare, Health and Golden Card Generation Camps were organized along with various PM-JAY centered IEC activities on the Ganga Ghats/ neighboring villages on this event. The overall objective of the initiative was to generate awareness among the target beneficiaries of Ayushman Bharat PM - JAY Scheme. During this event from January 26 to 31, 2020, a total of **33,979** golden cards have been issued in the 26 participating districts of Uttar Pradesh, with an average of 5100 golden cards per day. To monitor activities conducted during Ganga Yatra in various districts, several teams of SACHIS and officials visited the event.
